In Delhi

Pushpa Bector, Senior VP, DLF

Winner: Best Residential Building Design Award (DLF Aralias, Gurgaon)

At DLF, we strive to set new industry benchmarks and this award is the reward to our achievements. The RR Kabel Society Interiors Building Design Awards 2011 is a great initiative started by both Society Interiors and RR Kabel. I believe great buildings add character to the city and also give great opportunities for tourism. It's a new beginning and I am sure there would be many more awards to pick up for us next year.

Getamber Anand, MD-ATS Infrastructure

Runner up for Best Residential Building Design Award (ATS Paradiso, Noida)

We hear of various design awards every other day. RR Kabel Society Interiors Building Design Awards 2011's committee should be careful to have authenticity in the awards, so that there is dignity and respect. If there are too many award events in the real estate and interiors sector, then all of them lose their value. There has to be an institution that does a fair job in giving these awards and in the end that institution will be the leader in the interiors and architecture awards.

Rahul Kumar, Principal Architect-Rajinder Kumar Associates

Runner Up: Best Hospitality Design Award (The Claridges, Surajkund)

RR Kabel Society Interiors Building Design Awards are a great opportunity for architects and developer to get recognized in good real estate projects. We have very few awards in the design category in India. I am sure these awards will encourage architects to do a better job. We are very grateful to the organizers.

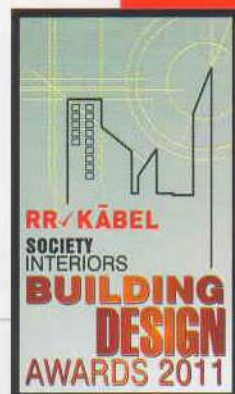

Anand Sharma, Chairman, Design Forum

Runner Up: Best Retail Design Award (Select CityWalk, Saket)

It's a big honour to receive the award, architects are normally not awarded and it is a great feeling. We need all kinds of forums to encourage architects and developers. I think the best part about RR Kabel Society Interiors Building Design Awards 2011 is awarding the collaboration of architect and developer. Great buildings are only possible with the collaboration of both architect and developer.
